These Library and Lending Rules are issued pursuant to Section 4 Subsection 7 of Act No. 257/2001 Coll. about libraries and conditions of operation of public library and information services (hereinafter referred to as the “Library Act”) and according to the Statute of VSB – Technical University of Ostrava (hereinafter referred to as “VSB-TUO”).
2. The VSB-TUO Central Library (hereinafter also referred to as the “VSB-TUO CL” or the “Central Library” or the “CL”) is an all-university workplace. The mission of the Central Library is to provide information for studies and research and development activities at the university. The Central Library fulfils this mission through activities consisting in collecting, processing, preserving and making the library and information collection available through library and information services.
3. The Central Library is organisationally incorporated into the Office of the Vice-Rector for Science and Research. To support the work of the Central Library, the Vice-Rector for Science and Research may establish a library council as its advisory and initiative body.
4. The Director of the Central Library is responsible for the library collection and the operation of the Central Library.
5. The library collection of the Central Library is supplemented in accordance with the profile of VSB-TUO, which is based on the accredited study fields and the research and development plans of the university, mainly by purchasing from the funds allocated to the Central Library. Other sources of supplementing the library collection include donations and exchange of publications. Additions to the library collection are also ensured by purchase from the funds of the departments or other activities of individual departments of the university. The library collections obtained from the funds of the faculties or departments are preferably made available to the workplaces that have received these funds. The procedures for replenishment of the library collection are outlined in the Policy for Replenishment of the Library Collection of the Central Library, VSB – Technical University of Ostrava (TUO_PKP_20_001) and in the controlled document Guidelines for Handling Proceedings of Professional Events (TUO-PKP_08_001).
6. After professional processing, the library collection of the Central Library is made available on the library premises and loans outside the library for a fixed period. The electronic information resources are made available to authorized users through the Internet in accordance with licence agreements.
7. Services to users are provided in the lending department and in the study room of the Central Library in Ostrava-Poruba, in the library and study room at the Faculty of Economics of VSB-TUO, in the library at the Faculty of Safety Engineering of VSB-TUO and in the library at the Faculty of Civil Engineering of VSB-TUO.
8. At the departments and other university workplaces, departmental libraries are established at the request of the heads of these departments or workplaces based on the directive Establishment and management of departmental libraries (TUO_SME_04_004). The library collections of the University departments and workplaces are financed exclusively from the funds of these departments and are part of the Central Library collections. Departmental library collections are added to and processed by Central Library staff on the basis of requests from the University departments and workplaces and are recorded in the library catalogue as

so-called deposit collections or as Personal Unlimited Loans (PUL).

- a) Deposit funds are located in the relevant department or workplace. Their preservation, access to them, including making them available for the purposes of interlibrary loan through the Central Library, and their protection are the responsibility of the employee of the University department or workplace who has been delegated this responsibility by the head of the department or workplace.
 - b) Personal unlimited loans are classified in the library system as standard borrowing categories with a departmental library location. The authorised user to whom the document is lent in the PUL mode is responsible for the protection of the documents and for making them available for interlibrary loan purposes through the Central Library.
9. Pursuant to Section 5 of the Library Act No. 257/2001 Coll., the Central Library shall be registered in the Register of Libraries in accordance with Section 3, Subsection 1 (c) of the Library Act as a basic library, and pursuant to Section 12 Subsection 1 of the Library Act as a basic library with a specialized collection.

- b) The loans are carried out in accordance with the library's mission and the provisions of Act No. 121/2000 Coll., the Copyright Act.

1. Lending procedures

- 1.1 Documents from the library collection are lent to the library users upon submission of a valid user card through the electronic paperless system. The signature on the "Registration of the Internal/External User of the VSB-TUO Central Library Services", in which the user expresses his/her consent to the paperless lending system, is legally binding for each borrowed document of the given user.
- 1.2 Prior to borrowing, the user is required to inspect the document and report any possible faults to the librarian.
- 1.3 The loan is closed when it is electronically (by scanning the barcode from the document) recorded in the automated system of the Central Library, and it is not accompanied by any written confirmation.
- 1.4 Registration of the loan is done by loading the document barcode by the librarian into the user's account. The user opens the account him/herself by attaching its chip card to the chip card reader. The library worker then registers the loan in this account by scanning the barcode from the loaned document. The librarian records any possible document defects in a note. The user is required to visually inspect all operations in his/her account on the PC screen. S/he can also request a printout of the current state of loans in his/her account.
- 1.5 Users of the ILS (legal entities) borrow documents from the library collection under the general ILO legal regulations.

2. Interlibrary loan services

- 2.1 If the document is not in the Central Library's collections, the library shall provide the user with a precise bibliographic references for borrowing the document or delivering a copy thereof through an interlibrary service from another library pursuant to Section 14 of the Library Act and Sections 2 and 3 of Decree of the Ministry of Culture No. 88/2002 Coll.
- 2.2 In this case, the nature of the loan and the loan period is defined by the lending library.
- 2.3 When submitting requests for interlibrary and international interlibrary loan services, it is necessary to take into account the length of delivery, the length of lending specified by the

¹ Act No. 89/2012 Coll., the Civil Code: By the loan agreement, the lender leaves the borrower a non-consumable thing to the borrower and undertakes to allow him/her to use it free of charge on a temporary basis. The borrower acquires the right to use the thing in the manner agreed and, if it has not been agreed, in a manner commensurate with the nature of the thing. The borrower is not entitled to leave the thing to another person without the permission of the lender. The lender leaves the thing to the borrower in a condition that is fit for use.
